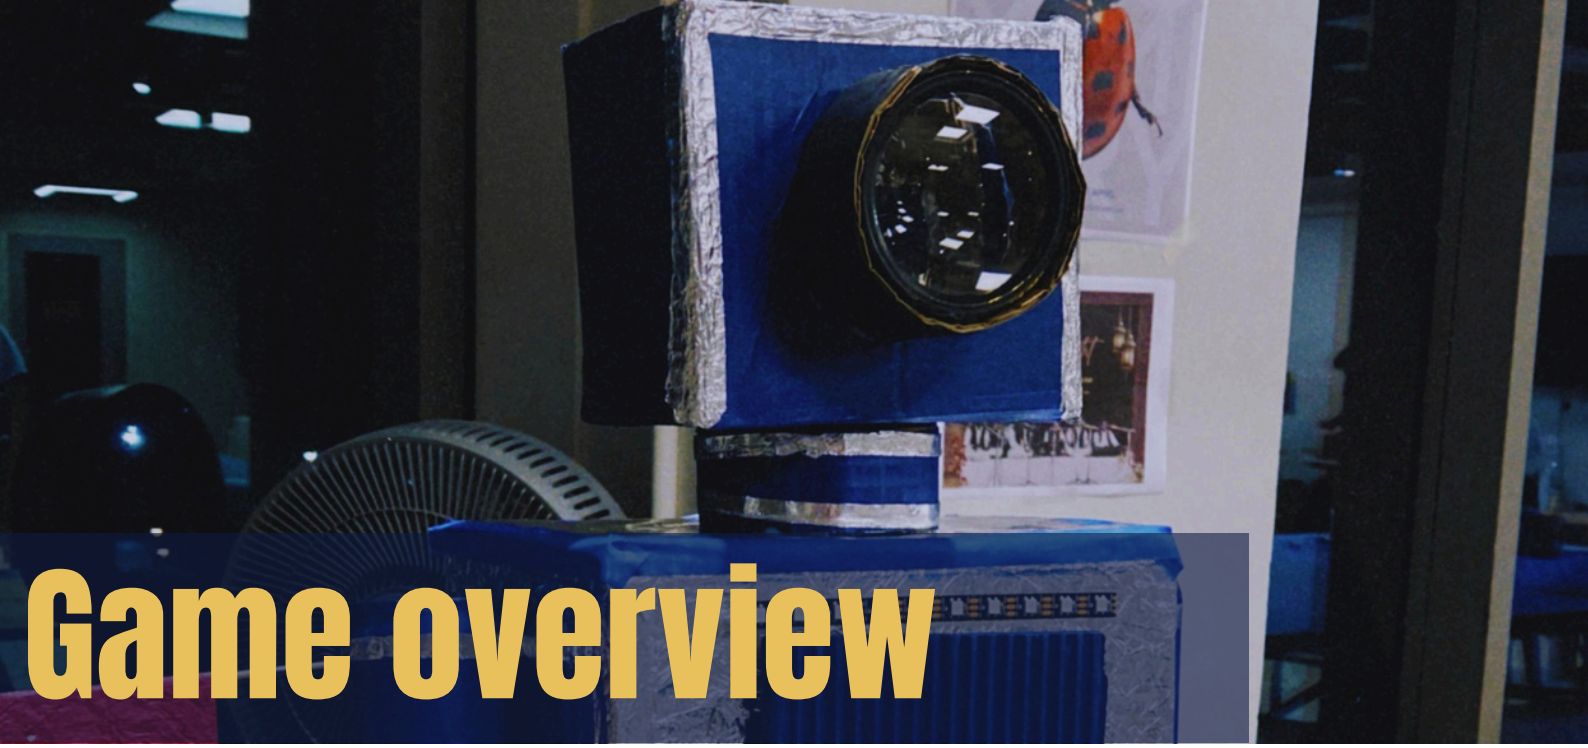
"DUNK IT" BOT

... STEPS TO PLAY ...

1. Observe the eyes, & wait for the pause
2. Press the button during the window pause(timing matters!)
3. Flap opens–SHOOT!
4. Duration for which flap is open shrinks each consecutive score
5. Score 4/4–YOU WIN!



Game overview

The Dunk It Bot is a tabletop arcade game where you shoot a ball through a flap controlled by a robot. The robot's animated eyes signal when the flap is about to open — your job is to press the button at exactly the right moment and shoot while it's open. Score 4 consecutive shots to win!

What it tests?

Reaction timing: press during the brief pause or the flap stays shut.

Visual focus: the eyes are your only cue; watch closely to read the pause

Pressure under difficulty: each score shortens the flap time; the better you play, the harder it gets

Shot accuracy: timing isn't enough; you still have to land the shot in time.

Score 4 out of 4 shots to beat the bot!
